"Denk Associates is a small, family run consulting engineering firm. We had always used a paper-based accounting system. It was a challenge to get correct and timely information to help us manage the business.

We had been looking at several computer-based solutions for a number of years, but were unable to decide on the perfect fit for Denk Associates.

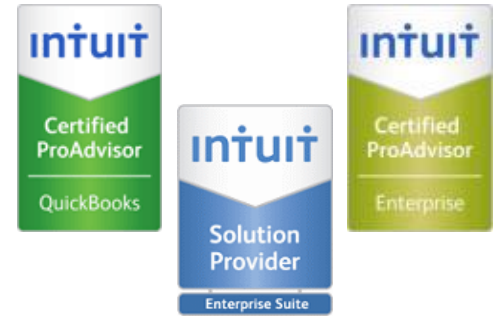

After attending a QuickBooks class that Scott taught, we joined together to implement QuickBooks and streamline our systems. We are completely satisfied with the move to QuickBooks and would highly recommend Scott for his QuickBooks and financial management expertise."

Michael T. Denk, Principal, Denk Associates, Inc.

Take the guesswork out of using QuickBooks for your financial needs – get the help of a trusted QuickBooks expert that has been helping businesses for years:

ONE-TO-ONE CONSULTATION

Why sit in a QuickBooks class only to discover that your specific needs aren't going to be discussed? Let me help resolve areas of confusion and ensure you are using QuickBooks the right way. We can meet on-site or over the Internet for as little as an hour, or as long as it takes to get things right!

INITIAL QUICKBOOKS SETUP

This is one of the most critical steps in working with QuickBooks. If your company data file is not set up correctly, you will be paying for it over and over again in higher accounting fees and troubleshooting expenses. Ensure you start your QuickBooks journey with a solid foundation!

TRAINING – INDIVIDUAL OR GROUP

Don't guess at how to use QuickBooks to meet your specific needs! The learning tutorials are ok, but they don't help you figure out how to adapt QuickBooks to the needs of YOUR business. Put my QuickBooks expertise to work with your staff – I make QuickBooks training easy, and you don't have to leave the office!

TROUBLESHOOTING/PROBLEM RESOLUTION

Contact me for help before you throw up your hands in frustration! Working together, we can determine the extent of your QuickBooks problems and put a solution in place to prevent them from happening again.

CONVERSION FROM AN EXISTING SYSTEM

Moving from your existing accounting software to QuickBooks doesn't have to be a scary or budget-busting event. Tap into my expertise to help minimize the pains of converting to QuickBooks and ensure success for you and your team!

HELP SELECTING THE RIGHT QUICKBOOKS ADD-ON SOFTWARE

Don't make the classic mistakes many businesses do when looking for new software, especially packages that integrate with QuickBooks. Work with a QuickBooks expert to ensure your success.

A few of my favorite QuickBooks add-on software packages:

Credit Card Processing with QuickBooks Merchant Services:

Don't lose sales because your business doesn't accept credit cards! Capture those customers that want to buy your products and services with a credit card by using the [QuickBooks Merchant Services](#) program. Extremely cost-competitive with other credit card merchants AND it integrates with QuickBooks!

Advanced Inventory Management:

[Fishbowl Inventory](#) and [Acctivate](#) are some excellent choices for these needs.

Customer Relationship Management (CRM):

[Results CRM](#) is a very robust, budget-friendly CRM package that has tight integration with QuickBooks.

Shop Floor Control and Management:

[The E2 Shop System](#) and [Misys Manufacturing Software](#) are two excellent QuickBooks add-on programs that bring order to the chaos on your shop floor!

Scheduling and Field Service Management:

[WorkTrack](#) is a unique specialized software program that was designed with field service companies in mind. It is a live add-on for QuickBooks that is used for customer management, job management, scheduling, work orders, phone calls, reminders, to-do

Inventory Assembly and Bill of Material Management:

[CCRQBOM](#) takes the basic functionality provided in QuickBooks Manufacturing Edition and moves it to a higher level. Where used, multiple level bills, requirements reporting and much more.
